LIMITLESS LIVING

European Technology Customized for Indian Lifestyle

Elemmentz is more than an Interior and Modular Designer brand; it's an eclectic group of professionals, visualizers, and craftspeople dedicated to creating authentic environments that echo the dreams of the people who inhabit them. We use the highest quality materials to create endless personalized design concepts that can change an insensate setting into a soulful space.

The Leadership Team

Manidhar Yalamanchi and Siva Prakash Alluri started their journey with Designers Kitchens & Wardrobes Pvt. Ltd. and ANB Interiors & Exteriors Pvt. Ltd., respectively.

They collaborated in the year 2016 and formed Volksmobel India. The company touched great heights & it was time to build a brand identity and this led to beginning of a new chapter - ELEMMENTZ

Aspirations

Mission & Vision

Our homes and workspaces are where we find comfort, safety, happiness and pride.

To become a trusted partner for our clients by developing a truly transformative space that reflect their individual character and style through uncompromising quality, innovative and customized designs, all at an exceptional value.

Enriching lives by building dream spaces, with honesty and integrity.

Experience Centre

Centrally located in **Jubilee Hills** and spread over 5000 square feet, our Experience Centre is where you get to re-imagine your home or office.

It is like playing a game of jigsaw, except for one small difference. You get the freedom to **choose the puzzle pieces** that you like **from an impressive collection** of modular furniture like Kitchens, wardrobes, closets, conference tables, and workstations to **put together the picture of a home or office** that you have always wanted for yourself.

Manufacturing Unit

Situated close to Hyderabad's development hub, our 30,000 square feet IDA Bollaram manufacturing unit is where **technology** and **creativity** meet to create **magic**.

Here, state-of-the-art **German machines** (integrated with **world-class cabinet manufacturing software**) work with extreme precision to **produce sophisticated modular furniture** that is both **stylish and ingenious** in its functionality. Plus, due to our meticulous production process and swift transportation, all these **high-quality products** are delivered to their destination **timely and efficiently**.
